

## WireIE and CANTO Launch "Computers for the Caribbean" Foundation

(Richmond Hill, ON) July 14, 2009 – WireIE Holdings International Inc. is pleased to announce the official launch of the "Computers for the Caribbean (CTC)" Foundation, in conjunction with the Caribbean Association of National Telecommunication Organizations (CANTO).

On July 13, 2009, WireIE President & CEO Robert Barlow presented The Honourable Tillman Thomas, Prime Minister of Grenada, with a donation of at least 15 HP computers and training for the 2009 calendar year, at CANTO's 25<sup>th</sup> Annual Conference and Trade Exhibition in Trinidad & Tobago.

WireIE will donate 1.5% of its revenue from the region to purchase computers and train the recipients on a yearly basis.

"WireIE's goal is to connect the Caribbean through technology use in order to capture the age of social media and enable web 2.0. This is a long-term initiative, and we look forward to building this program with CANTO in the years to come", said Barlow.

The computers will be placed in libraries, post offices, and community access centres for public use in Grenada.

The CTC Foundation represents the ongoing commitment of WireIE and CANTO in the development and growth of the Caribbean region.
